Our troops are supporting your right to have an opinion and voice it. Please aid their re-integration by considering some type of assistance to Green Recovery's Camp Renewal. A list of stores and provisions still needed may be found here . You can also help a great deal by simply passing on this link [www.Greenrecovery.org](http://www.Greenrecovery.org). You can help get this message out to any vet in need of healing. If you know of a homeless vet please contact [Greenrecovery.org](http://Greenrecovery.org) Citizens who want to help, can also do more locally to help there local Veterans in need.

This is a decision that you will have to make, for your future. Time to pay attention to the history that you are making.

I have this to report, we are making great progress with our limited resources, we thank those who have offered up support for the Veterans of today and tomorrow. PLEASE HELP...
